Afrinic IRR Homing (NWI-3) Project Update

Piotr Strzyżewski
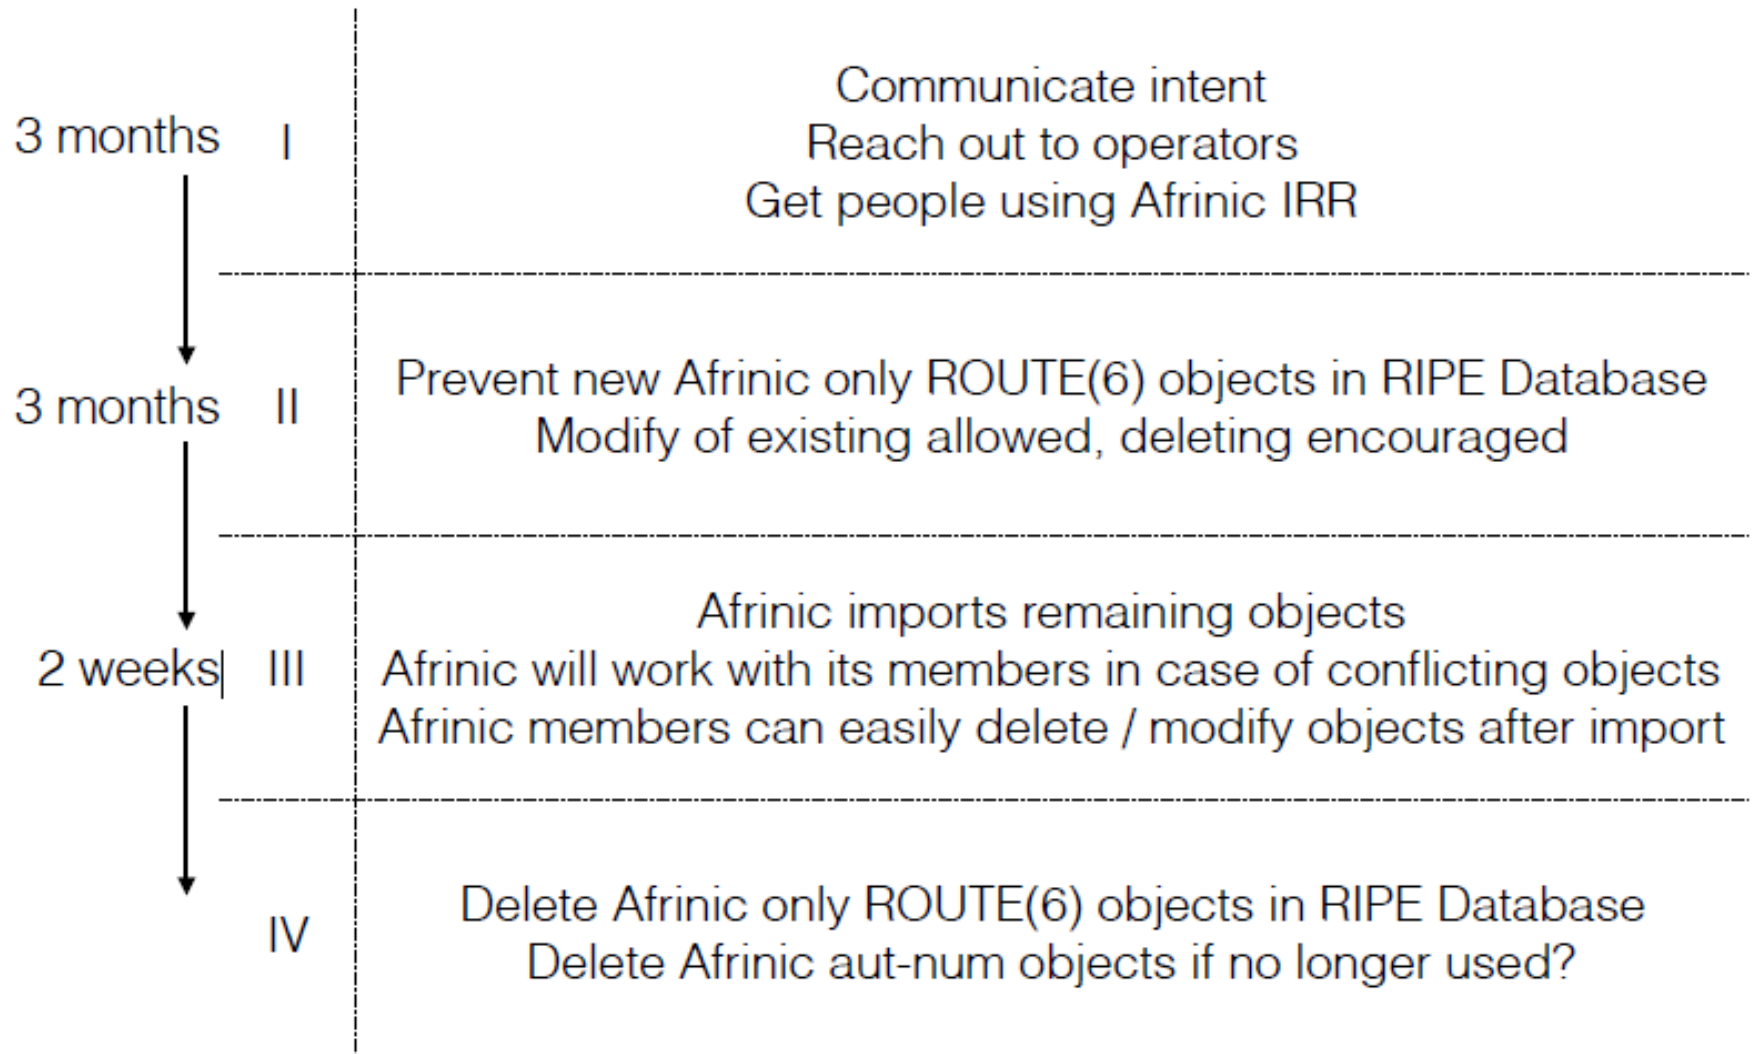

RIPE 73, DB-WG, 27.10.2016

NWI-3

- ❏ „Huge" participation in the discussion
- ❏ „A lot of" messages
- ❏ But... The only NWI which reaches „Solution Definition" state
- ❏ Proposed solution by RIPE NCC (as requested by the community)
- ❏ AFRINIC is happy to cooperate

Proposed Implementation

3 months	I	Communicate intent Reach out to operators Get people using Afrinic IRR
3 months	II	Prevent new Afrinic only ROUTE(6) objects in RIPE Database Modify of existing allowed, deleting encouraged
2 weeks	III	Afrinic imports remaining objects Afrinic will work with its members in case of conflicting objects Afrinic members can easily delete / modify objects after import
	IV	Delete Afrinic only ROUTE(6) objects in RIPE Database Delete Afrinic aut-num objects if no longer used?
